

WELLSOFT WORKS

2008 KLAS Award: Wellsoft #1

Another #1 Ranking to Report!

Wellsoft is again ranked the top vendor in the Emergency Department Information Systems category in the 2008 Best of KLAS Report released December 15, 2008.

Wellsoft rated the **highest overall** and scored 100% in the "Recommend to a Friend/Peer" category.

Customers rated Wellsoft the highest on key attributes:

- **Keeping Promises**
- **Living Up to Expectations**
- **The High Quality of Implementation Staff**
- **Client's Best or One of the Best Vendors**

Wellsoft Wins AGAIN!

Wellsoft wins "Vendor Charting Competition" at the 14th Annual EDIS Symposium

Once again, Wellsoft won the competition hands down, completing the chart in less time than the other 7 competing EDIS vendors.

Speed and Ease of Use of Wellsoft's EDIS were clearly demonstrated.

Wellsoft invests heavily in engineering the user interface and has designed the simplest, most logical sequence of clicks or keystrokes for every task.

Wellsoft ~ CCHIT Certified®

Emergency Department EHR

In November 2008, Wellsoft EDIS v11 received 08 CCHIT Certification by complying with Emergency Department EHR requirements.

The Certification Commission for Healthcare Information Technology (CCHIT) is a private non-profit organization recognized by the federal government as an official certification body for healthcare information technology products. Its mission is to accelerate adoption of robust, interoperable health information technology (HIT) through the United States by creating an efficient, credible and sustainable certification program.

Wellsoft passed 100% of the ED EHR 08 Test Script demonstrating interoperability and compliance in the following areas:

- HL7 Standards & Message
- HIPAA
- Audit Trail Node Authentication
- Security Features
- Functionality Features including:
 - ◆ Patient Registration & Tracking
 - ◆ Order Tracking & Results
 - ◆ Medication Management
 - ◆ Clinical Documentation

"Becoming a CCHIT Certified product demonstrates Wellsoft's continued commitment to industry approved standards. We continue to incorporate standards into our product with focus on promoting patient safety, enhancing patient care and exceeding our client's needs and expectations."

**John Santmann, MD, President
Wellsoft Corporation**

Wellsoft Welcomes New Customers

- ◆ **Universal Health Services—King of Prussia, PA**, the third largest hospital management company in the U.S. has selected Wellsoft EDIS for its 24 Acute Care Hospitals which serve a combined total of over 800,000 ED patients annually.
- ◆ **Los Angeles County+USC Medical Center** will Go-Live with Wellsoft EDIS in 2Q09. Located in Los Angeles, CA, LAC+USC services over 160,000 ED patients annually.

Clinical Decision Support for Core Measures

Efficiently track, capture and report on CMS and The Joint Commission quality measures to:

- **Expedite Clinical Priorities**
- **Maximize Pay-for-Performance**
- **Maximize Payment Incentives**

Wellsoft's Clinical Decision Support utilizes a single table accessible from the tracking display and found on triage and chart displays to remind clinicians to perform the expected patient level of care.

When utilized on the tracking display, EDs can define custom "rules" and color codes to reflect the status of the patient's care progress.

Patient care is tracked in real time. This includes displayed elapsed time and reflects when care was initiated and completed to achieve quality measure compliance.

Three Reports are provided to generate performance reports based on the data collection table to promote superior quality of care.

- **Core Measures Log**
- **Core Measures Discrepancies Report**
- **Core Measures Tally**

Community Medical Center Interview with HMT

In a recent interview with Health Management Technology (HMT), Deb Clark, RN, Nurse Manager, ED at Community Medical Center in Scranton, PA says:

"With standing orders in Wellsoft, I press a key while I'm assessing the patient and their orders go where they're needed. It saves time retrieving charts and writing narratives."

To read the interview in the February 2009 issue of Health Management Technology, please visit <http://www.healthmgttech.com/features.aspx>

Wellsoft Supports VMWare™

More than half of Wellsoft's EDIS clients are using some form of virtualization with VMWare today—from servers to the desktop.

In addition to server consolidation, reduced data center costs (space requirements, power and cooling), desktop management and security is improved.

Wellsoft System Expansions

- **Community Medical Center**
Nursing Documentation, CPOE
- **Duke University Health System**
Core Measures, Pharmacy Interface
- **Durham Regional Hospital**
Auto Faxing
- **Hamilton Medical Center**
Medication Reconciliation
- **High Point Regional Hospital**
Charge Capture with Billing Interface
- **Huntsville Hospital**
*Physician Documentation
Image Capture (Anatomical Drawings)*
- **Memorial Hospital**
Nursing Documentation
- **North Oaks**
Enhanced Audit Trail
- **University Medical Center at Princeton**
CPOE, Facility Charge Capture with Billing Interface
- **St. Vincent Health**
Drug/Drug & Drug/Allergy Checking
