

WELLSOFT

THE HEART OF YOUR EMERGENCY DEPARTMENT

WELLSOFT® EDIS DISCHARGE PLANNING

Patient Discharge Instructions

(English and Spanish)

More than 2,000 diagnosis specific aftercare instructions are included in the system. Wellsoft EDIS enables users to quickly edit instructions on a one-time or permanent basis. Clinicians can save their own library of instructions if desired. The source material for the Wellsoft EDIS instruction sheets has been provided by Wellsoft and Elsevier Inc.

Prescriptions & Work/School Excuses

Quickly produce computer generated prescriptions, complete with patient drug instructions. Prescriptions automatically include physician-specific information and required license/DEA numbers. Prescription preferences (including drug, dosage and frequency) are customized to client specification. Work/school releases are also included.
